SCHOOL GUIDE · ONE PAGE

NOT ANOTHER SCHOOL APP. MORE FOR YOUR STUDENTS.

Combat FIT doesn't try to run your school. Keep the software you already use. We give your students a training log, sparring journal, belt tracking and recovery tools, and you see how they are going between classes.

WHAT THE COACH SEES

- Squad readiness before hard sparring, gradings and comps: who is fight ready, who is run down
- Injuries your athletes are carrying, tracked through to return to training
- Class roll-call in one tap, plus an 8-week attendance heatmap per member
- An at-risk flag on anyone who has not logged in for 14+ days
- Timetable, events, announcements with push, belt curriculum and grading records
- CSV export of training logs for members who share their progress

WHAT ATHLETES GET

- A quick daily readiness check-in: sleep, soreness, energy, stress
- Training log across every discipline they train, in and outside your classes
- Injury tracking and recovery tools
- Your timetable and events in their own calendar
- 60 days of Combat FIT PRO free when they join your school
